

Surrmax- and **Load Lux** -lashing equipment maximize the use of cargo space.

The lashing straps included in Ekeri's patented fastening system moves in the floor mounted lashing rails.

The **EkeLoad** beams allow for two-layer loading, also from the side.

Ekeheat heaters available in 5kw, 8kw and 11kw versions.

Dry freight

A dry freight unit is suitable for both parcelled goods and industrial loads. Extra equipment can maximise safety, make usage of the cargo space more efficient and reduce fuel consumption, amongst other benefits.

The dry freight product is Ekeri's most sold product.

Dry freight products are available on the following chassis types:

CENTRE-AXLE TRAILERS

STEP-FRAME SEMI-TRAILERS

DRAWBAR-TRAILERS

CITY SEMI-TRAILERS

SEMI-TRAILERS

TRUCK BODIES
