

EN12642XL certificate is available on FNA, FRC, dry freight and ADR EXIII solutions.

EN 12642 XL

Structures with the XL certificate have been tested to ensure that they can withstand loads in accordance with the EN12642 XL standard. This means that they are safer than normal structures.

The XL certificate is available for the following Ekeri structures:

- no side doors
- doors on one side
(not EXIII with door side on one side)
- doors on both sides
(only lightly insulated and ADR EX III)

EN 12642 XL products are available on the following chassis types:

CENTRE-AXLE TRAILERS

STEP-FRAME SEMI-TRAILERS

DRAWBAR-TRAILERS

CITY SEMI-TRAILERS

SEMI-TRAILERS

TRUCK BODIES
